FORMING: Trainer's toolkit

WP3 focuses on creating a multilingual Digital Training Toolkit designed to enhance youth work quality. The toolkit includes tools of informal education, exercises and guidelines for youth workers, particularly targeting female youth migrants in entrepreneurial empowerment programs. It is adaptable for trainers and teachers across various sectors, including Education, VET, and Business.

Translation

The toolkit will be translated into the national languages of the project countries. It will be accompanied by multilingual flyers and a whiteboard animation video, which will be shared on the DECOY YouTube channel, Facebook page, and Web Platform.

WP3

WP3, led by Italy with cooperation and support from all partners, will run from month 10 to month 15 of the DECOY project. Stay tuned for more updates as we work towards enhancing youth work quality through innovative and collaborative approaches.

Get involved

We encourage all stakeholders, including youth workers, trainers, and educators, to get involved in the WP3 activities. Your feedback and participation are vital to the success of this initiative.

Stay connected

For the latest updates and information on WP3 and the DECOY project, follow us on our social media channels and visit our web platform regularly. Your support and engagement are crucial as we work together to enhance the quality of youth work across Europe.

Stay tuned for more updates as we continue to make strides in enhancing youth work quality through innovative and collaborative approaches.
